Context

1. Introduction to the Topic
2. Overview
3. How and what?
4. CARE to

1. Introduction to the Topic

Let's begin.

Personal Portfolio

1. A personal website for interviews.
2. A simple yet effective addition in resume.
3. Gives a more effective overview on a persons abilities.

Why a personal website like portfolio?

well for starters it shows your level of creativity that you will bring to the institution.

It creates a space on the net where companies can find you and open doors for new ventures to find you.

Increases transparency between both the parties.

Helps you to find more varieties of offers!

2. Overview

- A personal portfolio website is a very simple yet an elegant and interesting way to let the interviewer know more about you.
- This website also helps to make your resume look different and definitely something people will keep in their mind.
- My topic will not just help me but will also let other students create their own by just tweaking a few things.

Not all who wander are lost!
